

Project: 97-99 Upper Street
Client: LOV Ltd
Architect: Lambert Chartered Surveyors
Value: £1.2M
Period: 52 weeks

This project entailed the total demolition of an existing building and the construction of a new structure, to form a commercial premises at ground floor and basement and 6 residential apartments above.

The works required extensive temporary support installations to support party walls and several internal chimney breasts. The entire property was underpinned and the new structure was steel framed throughout.

Hardwood floors were installed to all living areas and high quality finishes to all bathrooms.
